Convention Passes Important Resolutions and Names Santa Fe as Permanent Meeting Place.

Western Newspaper Union News Service.

Santa Fe.—The convention of highway officials adjourned after re-electing Francis E. Lester of Mesilla Park, president; Fidel Ortiz of Las Vegas, vice president; Arthur Seligman of Santa Fe, secretary, and W. M. Atkinson of Roswell, treasurer.

The executive committee is to consist of Governor McDonald, Attorney General Frank W. Clancy, Land Commissioner R. P. Ervin, State Engineer James A. French and three others to be named by President Lester.

The legislative committee is to consist of one member from each judicial district.

The resolutions adopted designate Santa Fe as the permanent convention city of the association, endorse the State Highway Commission and county road board system and recommend that where necessary for the sake of harmony a member of the board of county commissioners be appointed on the road board. It is recommended that the State Highway Commission undertake to complete at the earliest possible date the permanent and uniform signing of all state roads, charging the expense thereof against each county's apportionment of the state highway bonds.

The association urges the adoption by Congress of Joint Memorial No. 2 passed by the last Legislature, granting 2,000,000 acres of land for highway purposes in this state. It asks the United States government to make provisions under which twenty-five per cent of the income from the sale of lands in the state of New Mexico be paid into the state treasury for highway purposes, and that a copy of the resolutions be sent to the President of the United States, the president of the Senate, the speaker of the House, the secretary of the interior, Senators Catron and Fall and Congressman Hernandez.

According to an estimate presented by State Engineer James A. French a total of \$1,247,227 will be available for road building and improvement in New Mexico during the present year.

Mr. French estimated that the state funds, including the \$500,000 resulting from the sale of the state highway bonds, would amount to \$655,000, and the county funds to \$562,227. His figures follow:

STATE FUNDS—

Santa Fe.—After thorough investigation Governor W. C. McDonald is convinced that New Mexico has valid claim to a 350-mile strip varying from a half mile to a mile wide now claimed by the State of Colorado along this state's northern boundary, the thirty-seventh parallel. The state will institute proceedings to get the land, estimated to be worth several million dollars. It is contended that the line surveyed by H. H. Darling for the U. S. government in 1868 was shown by a federal survey by H. B. Carpenter in 1904 to be erroneous. A resolution, passed by Congress, adopting the Carpenter survey, was vetoed by President Roosevelt. It is held that Edith Ortiz and La Costilla, Colo., should rightly be included in New Mexico.
